

Unitary Large Equipment (ULE)

Certification Program

AHRI's globally recognized and industry respected certification program helps manufacturers sell more products, win bids, and comply with government requirements. Certify products with AHRI and stand out from the crowd.

Related Standard

Products in the ULE Certification program are tested according to AHRI Standard 340/360, *Performance Rating of Commercial and Industrial Unitary Air-Conditioning and Heat Pump Equipment*, and AHRI Standard 365, *Commercial and Industrial Unitary Air-Conditioning Condensing Units*.

Program Scope

This certification program covers:

- Unitary Air-Conditioners and Heat Pumps from 65,000 Btu/h to less than 250,000 Btu/h;
 - Single Packaged and Split Systems
 - Air-cooled and water-cooled
- Air-cooled Air-Conditioning Condensing Units from 135,000 Btu/h to less than 250,000 Btu/h;
- Air-Cooled Single Packaged Unitary Air-Conditioners from 250,000 Btu/h to less than 760,000 Btu/h.

Program Highlights

- Global program certifies both 50 and 60 Hz commercial air conditioning and heat pump equipment
- Certified products are annually tested at an ISO 17025-accredited third-party laboratory with top-level technical expertise and equipment
- AHRI reports data to the U.S. Department of Energy, the U.S. Federal Trade Commission, Natural Resources Canada, and the California Energy Commission for participants at no additional cost
- AHRI submits data for ENERGY STAR products at no additional cost or effort to participants

The [AHRI Certification Program](#) is a voluntary program, administered and governed by the Air-Conditioning, Heating, and Refrigeration Institute (AHRI), which ensures that various types of heating, ventilation, air conditioning, refrigeration, and water heating products perform according to manufacturers' published claims. Products that are certified through the AHRI Product Performance Certification Program are continuously tested, at the direction of AHRI, by an independent third-party laboratory, contracted by AHRI, to determine the product's ability to conform to one or more product rating standards or specifications.
